Empowering Businesses with Data-Driven Energy and Water Management

Take Control of Your Energy and Water Data

Managing utility use shouldn't be complex. With EDGE Essential, you get a simple, robust platform that centralises your energy and water data - no expertise required.

Track consumption, identify inefficiencies, and start saving today.

Why EDGE Essential?

Empowering small to mid-sized property owners and facility managers with data-driven energy insights

Save Money

- ✓ Reduce energy and water waste and cut costs with data backed decisions.

Stay Compliant

- ✓ Easy reporting for ESG and sustainability requirements.

Simple and Secure

- ✓ Cloud- based and hosted on Microsoft Azure ensuring reliability and security.

Essential

How EDGE Essential Works

Collect Data

- Connects with utility meters, IoT sensors, and building management systems.
- Tracks electricity, gas, water, and thermal energy in real-time.

Analyse & Visualise

- Aggregates and organises energy data into an intuitive, easy-to-use dashboard.
- Provides automated trend analysis and benchmarking for performance comparisons.

Optimise & Save

- Automated and intelligent alerts are generated to notify site teams.
- Identifies inefficiencies and offers actionable recommendations.
- Enables users to adjust operational strategies to reduce energy waste.

Essential

Key Features and Benefits

- ✓ Automated Data Collection | No manual readings, real-time tracking across all energy sources
- ✓ Granular Reporting | Provides detailed insights into energy trends, enabling informed decision-making
- ✓ Cloud-Based and Secure | Hosted on Microsoft Azure, ensuring reliability and security
- ✓ User-Friendly Dashboard | Simple, intuitive interface for easy navigation and reporting
- ✓ Customer Alerts & Notifications | Detects anomalies in utility consumption and sends alerts for corrective action
- ✓ ESG and Compliance Support | Generates auditable data for reports aligned with sustainability frameworks

"EDGE Essential helped us reduce our energy costs by 15% in just three months, without any additional capital investment."
